Dear Sir/Madam,

I am thrilled to apply for the Associate Software Engineer position at Softlogic Information Tecnologies. I am a fresh graduate with a bachelor of computer science degree at Eastern University - Trincomalee Campus.

I have nearly one year of experience developing web applications and an extensive knowledge of various programming languages. I am passionate about learning development new web applications and excited to work with your award-winning team.

In my undergraduate life I have involved in some projects, both individual projects and group projects and was able to work both front-end and back-end development during my intern period.

At my previous company, we developed a web application for a parking system with using .NET framework, and I was a member of development team of software solution to organize and manage web portfolios.

I've attached my resume, which is include further details about my skills and educational background. I believe my coding skills and experience make me a great fit for the Associate Software Engineer position with your company. Please do not hesitate to reach out if you have any question about my background. I am looking forward to the opportunity to speak with you further. Thank you for your time and consideration.

Thank you!

A.A.L.N.Arambawaththa
